

Manufacturing of power semiconductor sets in multifunctional designs for your use in the areas of electroplating, welding technology and power supply.

Also express deliveries within 24 hours are possible!

Silicon Press-in Diode Sets of all connection arrangements up to 380V / 6200A

Silicon Counter Cells up to 300A with 0,8V voltage steps

Controlled Silicon Rectifier Sets up to 380V / 1000A

Silicon Module Rectifier Sets up to 600V / 230A
